JUSTICE FOR BOSNIA TASK FORCE

*Loyalty to the country, always;
Loyalty to the government, when it deserves it! (Mark Twain)*

Thus,

*Loyalty to the Principle of Law and International Law, always;
Loyalty to Institutions of Law and International Law, when they deserve it! (JBTF)*

Justice for Bosnia Task Force was first founded in 1993 in Ottawa, Canada, in response to the need for patriotic action when it became obvious that the international community, led by neo-colonial powers Britain, France and Holland effectively engaged in dismantling the emocratically established victory of the electoral majority of the Republic of Bosnia and Herzegovina in the 1992 Referendum of Independence and the subsequent vote in its Parliamentary Assembly, which resulted in Declaration of Independence.

One of the three original founders of **Justice for Bosnia Task Force**, Mr. Stjepan Corkovic, as an elected member of the Executive committee of the Information Bureau of Bosnia and Herzegovina in Ottawa, initiated and then successfully marshaled, prof. Francis Boyle's legal

advice and suggestion to legally prosecute the rump Yugoslavia consisting of Serbia and Montenegro, on charges of Genocide, in the International Court of Justice in The Hague. His stated work was recognized and authorized by the late president of the Republic of Bosnia and Herzegovina, Mr. Alija Izetbegovic.

The second original founder of **Justice for Bosnia Task Force**, Djenana Campara, as an elected member and Vice-president of the Executive Committee of the Information Bureau of Bosnia and Herzegovina in Ottawa, was the contact point with the government of the Republic of Bosnia and Herzegovina and was partnered with Zeljko Milicevic in media liaison and lobbying work.

The third original founder of **Justice for Bosnia Task Force**, Mr. Zeljko Milicevic, was authorized by president Izetbegovic to organize assistance for the Tuzla Region.

The associate member of **Justice for Bosnia Task Force**, Dr. Kassim Ahmad, Malaysia's foremost thinker and philosopher who passionately and vocally supported Bosnia and Herzegovina in her struggle against Genocide, while condemning the international community for its complicity and betrayal of democratic principles, acted as a **Task Force** representative and a liaison for the Muslim countries in the South West Asia.

The original **Mission Statement** and activities of **Justice for Bosnia Task Force** were also recognized and authorized by Mr. Selim Beslagic, then mayor of Tuzla.

Today, in 2009, it is obvious to the founders of **Justice for Bosnia Task Force** that they have the moral duty and, indeed, the obligation to engage again and continue their original work as the international community and its internationally imposed system of government in the homeland, Bosnia and Herzegovina, has rendered the government itself dysfunctional.

MISSION STATEMENT

1. International Court of Justice in the Hague
 - a. The Court issued, in April of 1993 and, again, in September of 1993, an Order to the Security Council of the United Nations Organization, to immediately stop Serbia and Montenegro from continuing to commit genocide upon Bosniaks. **Justice for Bosnia Task Force** will act to see to it that those countries responsible for complicity to Genocide, in that they ignored that Court Order, are properly brought before The Court.
 - b. In the above, not-yet-implemented, Court Order exist provisions upon which the Dayton Agreement has no legal basis to exist and be in force. **Justice for Bosnia Task Force** will act to see to it that the state of Bosnia and Herzegovina asserts its sovereignty by duly and completely annulling the Dayton Agreement and then reinstating its original Constitution of the Republic of Bosnia and Herzegovina.
 - c. Further, in the above, not-yet-implemented Court Order exist provisions upon which Republika Srpska has no legal basis to exist. **Justice for Bosnia Task Force**

will act to see to it that the state of Bosnia and Herzegovina exerts its sovereign right by properly and completely dismantling and extinguishing Republika Srpska, together with its institutions.

d. Holland, due to its unquestionable, indubitable and documented complicity to the Genocide of Bosnia in general, and the Genocide in Srebrenica in particular, has forfeited its moral fitness to be the home of The International Court of Justice.

Justice for Bosnia Task Force will act to see to it that The Court, together with its complete infrastructure is moved from The Hague in Holland, to Srebrenica in Bosnia and Herzegovina, which is where it morally, ethically and otherwise, belongs.

2. Holland

Holland, due to its unquestionable, indubitable and documented complicity to the Genocide of Bosnia in general, and the Genocide in Srebrenica in particular, must be properly prosecuted in a court of law. **Justice for Bosnia Task Force** will act to see to it that Holland is served due justice in this respect.

3. Great Britain

A legal claim against Great Britain, for unquestionable, indubitable and documented complicity to the Genocide of Bosnia in general, and the Genocide in Srebrenica in particular, has been completed and is ready to be filed with The Court. **Justice for Bosnia Task Force** will see to it that Great Britain is served due justice in this respect.

4. Canada

Mr. Zeljko Milicevic is a *prima facie witness* that Canada has owned and operated, in its embassy in Belgrade, at least since 1986, and certainly during the 1992-1995 Genocide of Bosnia, a most advanced electronic signals gathering and analysis equipment, a TEMPEST Frequency Analyzer, model 9500, made by Dynamic Sciences of California, United States. Given that fact, Canada has, for years, during the administrations of Brian Mulroney and Jean Chretien, been able to know every move of every unit, both in planning and in execution, of the Yugoslav National Army and its paramilitary formations, agents and surrogates who committed the Genocide of Bosnia. **Justice for Bosnia Task Force** will act to see to it that Canada, together with its political and military leaders at the time, is brought before The Court and served due justice in this respect.

5. Harmony of religions

The neo-colonial powers which today run the world affairs have been successfully using religions as a means of dividing populations and fomenting conflict, both in Bosnia and in the rest of the world. **Justice for Bosnia Task Force** will act to see to

it that people of different religions join the just battle against the common enemy, the oligarchs and neo-colonial powers and their agents and surrogates.

PARTICIPATION

Justice for Bosnia Task Force is a movement of patriots and friends of Bosnia and Herzegovina. Participation is open to all who support our Mission Statement in full.

We invite all those in the homeland of Bosnia and Herzegovina and in its Diaspora, who have expertise in the domain of law and, in particular, international law, to join in these historic duties.

It is necessary that justice is served and its standards elevated.
