

Interfaith Competition - 2017

Religion is a ubiquitous human phenomenon. It has shaped and been shaped by the countless number of historical, geographical and cultural contexts in which humans live. Hence religion is, by nature, MULTIFAITH.

The contemporary global INTERFAITH movement encourages people from all religious persuasions to develop respectful and constructive interpersonal relationships at local, national and international levels.

This competition provides several ways in which people who are concerned to promote interreligious harmony and goodwill, can express their ideas about living in a multifaith society and/or promoting interfaith relations.

Entries will be judged on:

- a. originality and creativity;
- b. potential for promoting positive and constructive interfaith relationships;
- c. potential as a resource for people seeking to explore different ways to engage in multifaith activities.

Winning entries from each of the four formats to be available for posting on the website – interfaithinaction.org.au
