

Celebrating Islam

BRISBANE'S Muslim community is commemorating its proud history in Queensland this weekend with celebrations planned to mark the centenary of the Holland Park Mosque.

The first mosque was established in a house on Nursery Rd in 1908 and the current purpose-built mosque, which features aspects of Islamic architecture, was built in 1966.

Mosque spokesman Gaffar Deen said early Muslim immigrants congregated at each other's houses.

"Muslims have been in Queensland for more than 150 years," he said.

Mr Deen, who is descended from the State's first Muslims, heads a committee that is organising the mosque's centenary celebrations, which will seek to highlight the contribution of Muslims to South-East Queensland.

Queenslanders should be proud that Muslims have been here for such a long time, he said.

"One of the reasons Queensland Muslims and non-Muslims have little friction is because of our acceptance and integration into the wider community over a long period of time."

The celebrations will be held from 10 am on Saturday at 309 Nursery Rd.

Chief Kitchenware is expanding its product recall of the above (only models with two radiant heat globes are effected).

These products were sold nationally between 2000 and 2007 by electrical goods retailers, electrical contractors and national DIY stores.

Existing callers for Airflow, Lanson and P&R Products are logged within the database and shall receive a call from the recall centre to clarify the current status and new recall process.

How to identify:

If you have one of these models, does it meet the following criteria?

- A.) It matches one of the photographs above
- B.) It has one of the Brand names mentioned above on it
- C.) It has one of the Model numbers mentioned above on it: eg. M6600-0

Safety issue:

There is a risk of the lamp holders overheating and creating a **RISK OF FIRE**.

Please note: There is no risk of an electrical shock hazard and it is safe to continue using the light and exhaust fan (non-heating) functions if fitted.

What to do:

If you have one of the potential recall units, you should not use the heat lamps. Please unscrew and remove the heat lamps and store safely.

To assist in the expediting the recall process, before you call us please inspect the product label inside the unit behind the heat lamps and identify the model no, as per the list above.

If your model number is not on the above list this recall does not affect you.

Please write down the brand name and model no. and call our toll free number **1800 677 845** Australia any time from 9am - 8pm (Mon-Fri), 9am - 5pm (Sat) AEST.

If you cannot identify the model no. please organise somebody who can determine this for you. Please write down the brand name and model no. and call our toll free number **1800 677 845** Australia any time from 9am - 8pm (Mon - Fri), 9am - 5pm (Sat) AEST.
