*Your opportunity to make a difference*

*Do YOU want to use your voice to engage and influence key Australian identities from all different sectors of the community?*

*Do YOU want to strengthen your skills and experience and use them to make a difference within the community?*

*YOU could be one of 16 young Australian Muslims from around Australia to be selected to participate in Leadership Australia – A New Generation.*

### WHAT IS LEADERSHIP AUSTRALIA – A NEW GENERATION?

It is an intensive three day national program delivered in Melbourne, to assist young Australian Muslims in developing and strengthening their ability to play an active role in the community.

Following the program the participants are expected to implement project tasks within their state or territory.

### WHY A LEADERSHIP PROGRAM?

The Australian Multicultural Foundation (AMF) organised Muslim youth summits in states and territories in partnership with Department of Immigration and Citizenship.

The findings from each of these summits highlighted the importance of and need for leadership and mentorship amongst young Australian Muslims. However, Muslim youth felt that there was a lack of opportunity to gain the necessary skills-base to develop such qualities. They were looking for practical approaches that would assist their development to better participate and contribute to community activities in order to create greater understanding and awareness about Muslims in Australia.
